

WILDFIRE PREVENTION

Radio Script

NARRATOR- Picture this:

SFX- Birds chirping and small campfire crackling.

NARRATOR- The birds are chirping, and your campfire is looking good. But you decide it would be a good idea to throw a few more logs on.

SFX- Logs fall on fire, fire grows louder.

NARRATOR- You turn away for a second and by the time you turn back it's already too late. Your campfire has spread to nearby trees.

SFX- Fire grows even louder.

NARRATOR- The fire begins spreading to nearby cities and before you know it- the entire world is on fire.

SFX- Intense fire, sirens, and screaming.

NARRATOR- Be smart at your campsites, don't set the world on fire. For more information on wildfire prevention, visit SmokeyBear.com.
